Josh has told me that he's planning on a call with AQMG and CAMD early in January about how EE flagging will work at CASTNET sites that are reporting data to AQS because they have been upgraded to meet 40 CFR part 58 QA requirements. I pointed out to Josh that the draft Q&A document on EE has a question and answer on the same issue for NPS ozone monitors at IMPROVE sites.

---

Hi Phil and Sheila,

Phil, this is the letter that we spoke about by phone today- withdrawing the EE request as it pertains to the CASTNET site until we can work out the proper procedure for addressing that issue. Sheila, if you have questions, pls call me. R7 is anxious to move this letter forward.

Regards,

Josh
